A brief history of Mautic

11 years of growth and innovation!

2025: Mautic World Conference, London and online! 🚀🇬🇧🥳

- Mautic Conference Europe 🇪🇺
- Mautic Conference India 🇮🇳
- Mautic Conference South America 🇧🇷
- Mautic Conference Europe 🇪🇺

2023: Mautic becomes an independent open source project

2020: First governance model & started Open Collective, first MautiCon

2019: Mautic, Inc. acquired, including brand and trademark ‘Mautic’

2018: First community-led release

2016: Founder launches SaaS company ‘Mautic, Inc.’ providing enterprise services

2014: Project created & open sourced under GPL v3

What is new in Mautic this year?

Pivoting to lead with our product

By switching from a community-focused to a product-led approach, we can reach more people and empower them to get started and be successful with Mautic in the quickest possible time.

1.

We've established a free-trial system, a Managed Mautic service and a hosting providers directory, which allows people to jump straight into using Mautic or finding a partner to work with, without the need to think about hosting, installing and configuring the application itself.

Mautic Trials & Managed Hosting launched.

- Free **14 day trial of Mautic** launched with strong uptake (~500 trials per month on average)
- **Managed Mautic** - 40% of revenue in the first year comes back to the open source project
- **Hosting providers directory** including corporate members who offer a SaaS or 'bring your own Mautic' hosting service

Not yet a member? Want to be listed? Head to https://mau.tc/membership

Pivoting to lead with our product

By switching from a community-focused to a product-led approach, we can reach more people and empower them to get started and be successful with Mautic in the quickest possible time.

1.

We've established a free-trial system which allows people to jump straight into using Mautic without the need to think about hosting, installing and configuring the application itself.

2.

We've refocused our website to be product-led, and launched product-focused social media channels, so we can focus more on the product itself - what Mautic is, what it does, why you'd choose it, how it makes you successful.

Explore our new website!

- The first phase of the new mautic.org website was launched earlier this year
- Sections for product features, use by vertical and sector, case studies, members directory and more!
- The Websites Working Group responsible for ongoing maintenance and upkeep - looking for volunteers experienced with WordPress

Pivoting to lead with our product

By switching from a community-focused to a product-led approach, we can reach more people and empower them to get started and be successful with Mautic in the quickest possible time.

1.

We've established a free-trial system which allows people to jump straight into using Mautic without the need to think about hosting, installing and configuring the application itself.

2.

We're refocusing our website to be product-led, so that it's centralised on the product itself - what Mautic is, what it does, how it makes you successful.

3.

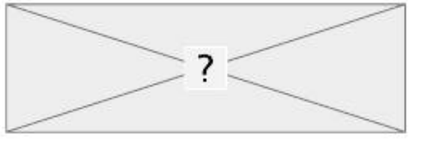

We've been reviewing feedback from users and prioritising features that we know marketers need to succeed with Mautic.

What's coming in Mautic 7.0?

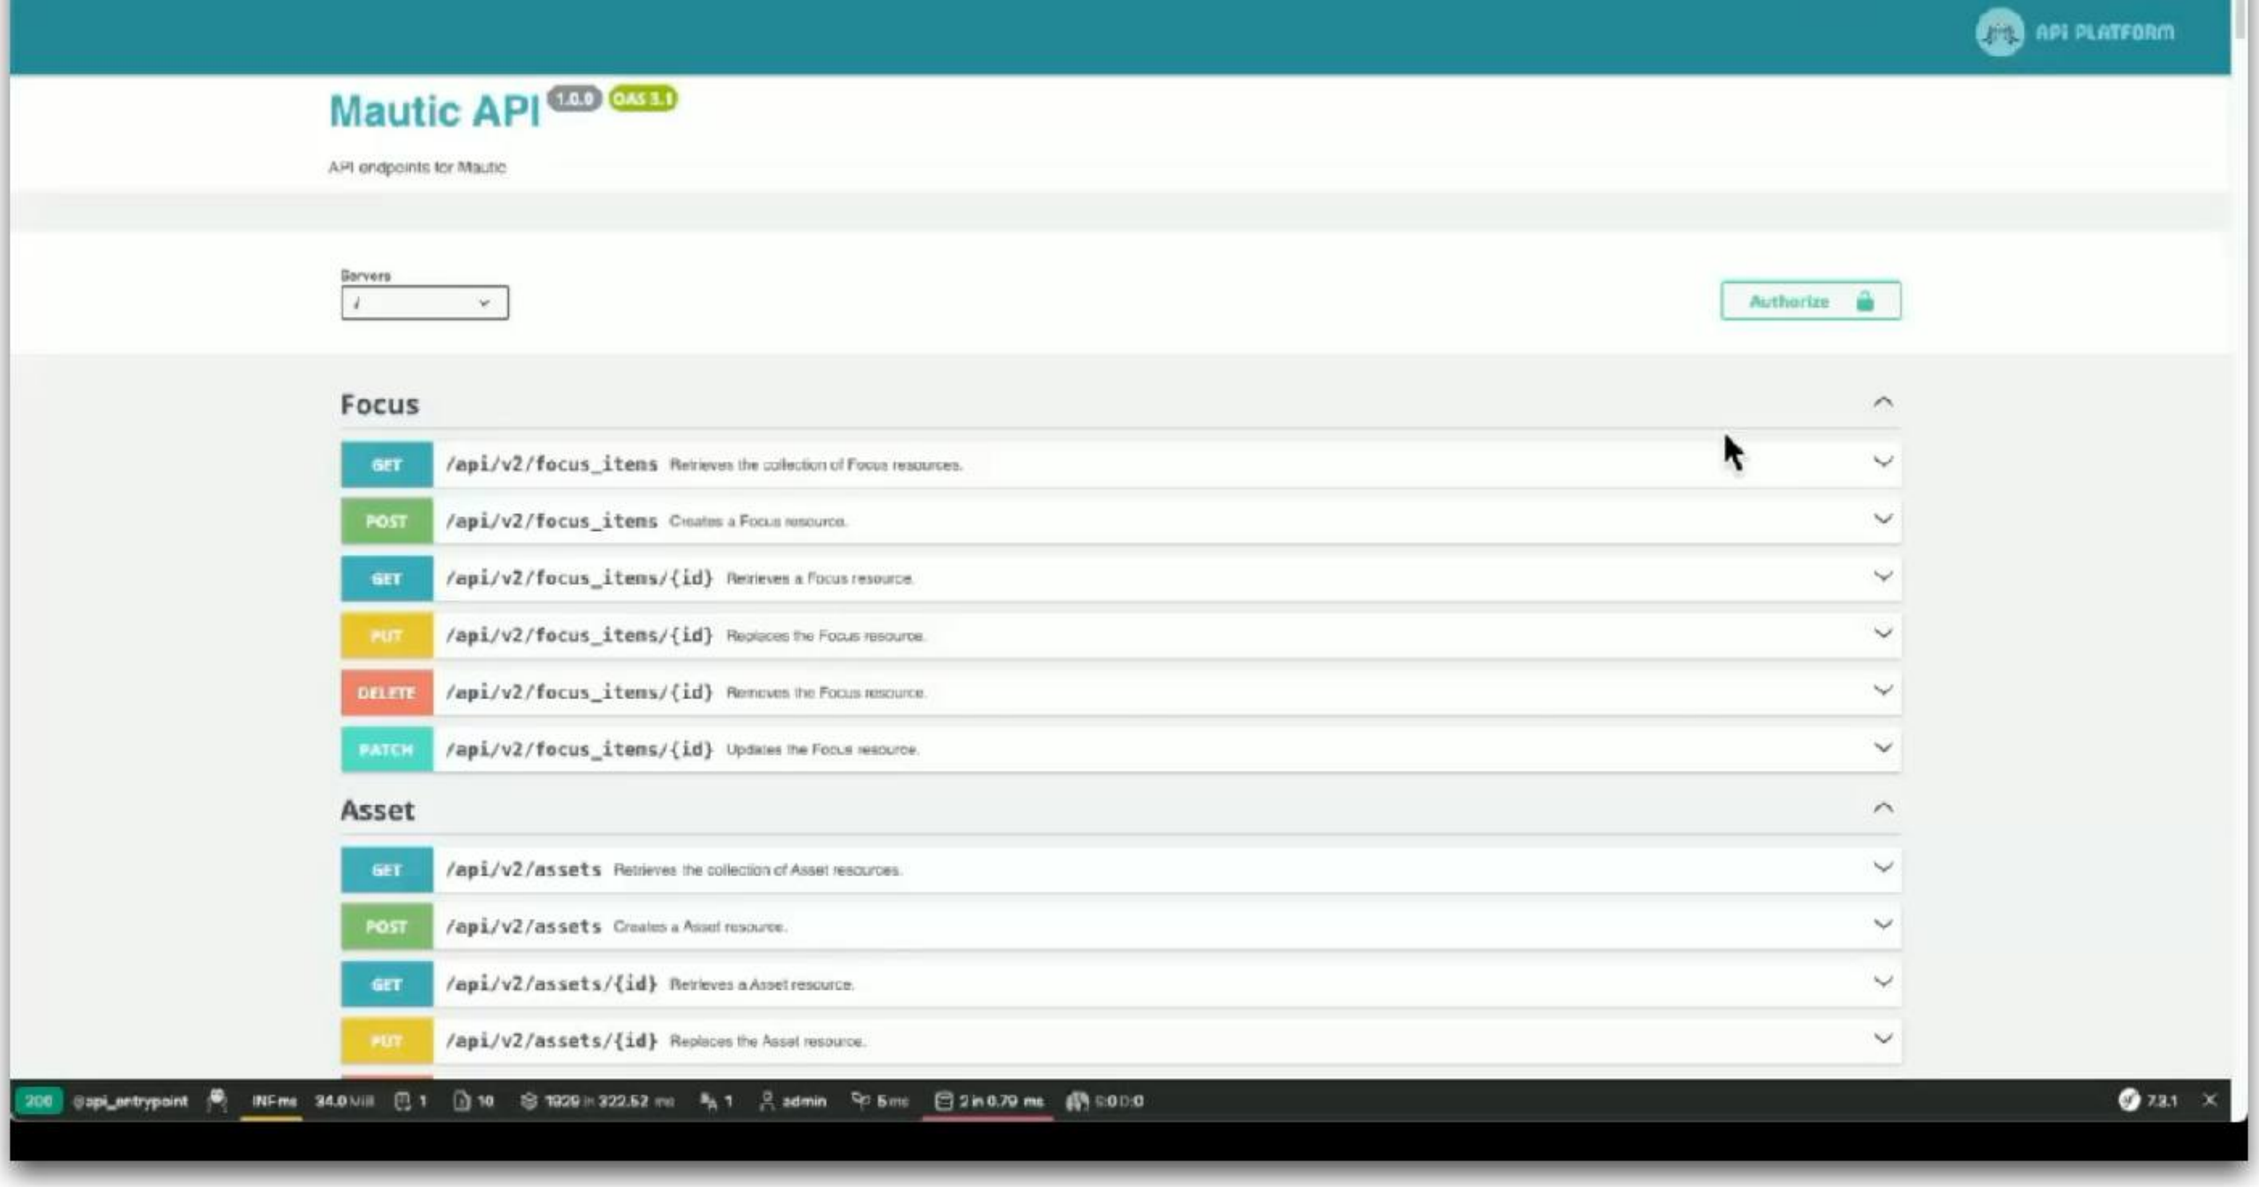

Export and import campaigns

Organise resources by projects

?

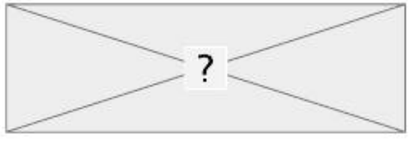

API v2 using API Platform (/api/v2)

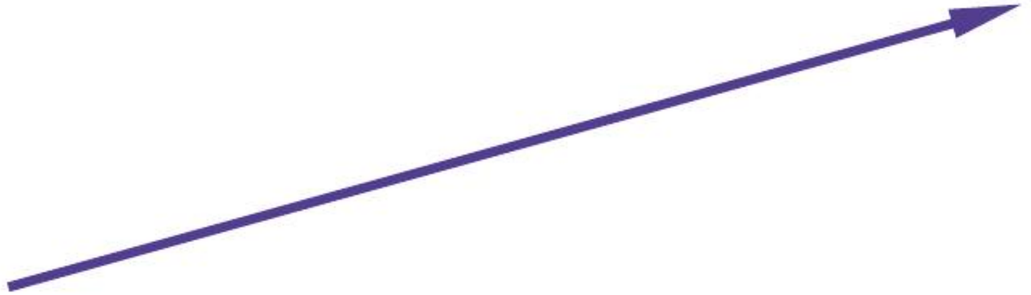

Multilingual Text Messages

Improvements to scheduled sending UI

?

Improvements to SMS/notification previews

New slider form field

Mautic 7.0-Release Candidate due this week.

202 and 127 pull requests merged in 7.0-alpha and -beta (that's at least 1,316 contributions in total so far!) - even more waiting to be tested

? ? @RCheesley ?

Let's celebrate the people and organisations who are making Mautic!

Top company contributors to Mautic Sept 2024 - 2025.

1. Acquia (637)
2. Dropsolid (374)
3. UpScale (217)
4. Leuchtfeuer Digital Marketing (206)
5. Webmecanik (193)
6. Aivie (181)
7. Comarch (93)
8. Casfer (49)
9. moorwald | Sven Döring (26)
10. Other Media (24)

Most active companies in Mautic Sept 2024 - Sept 2025.

1. Dropsolid (2249)
2. Acquia (2052)
3. Leuchtfeuer Digital Marketing (1200)
4. Casfer (875)
5. Webmecanik (730)
6. Aivie (615)

7. Mike Van Hemelrijck (456)
8. Zdeno Kuzmany (452)
9. Joey Keller (447)
10. Ricardo Freire (443)

What's around the corner?

?

Phase 2 grant received for Campaign Library project.

- Phase 1 is complete, and **Phase 2 has been accepted** as a project by NLNet with ~ €52k funding.

- We're hiring an EU based developer (full time), a UX/UI designer (1-2 months only), a Project Manager (part time) for a 22 week contract to implement the front-end user interface for the Campaign Library.

- Job adverts are live and we're interviewing. Due to ship with Mautic 8.

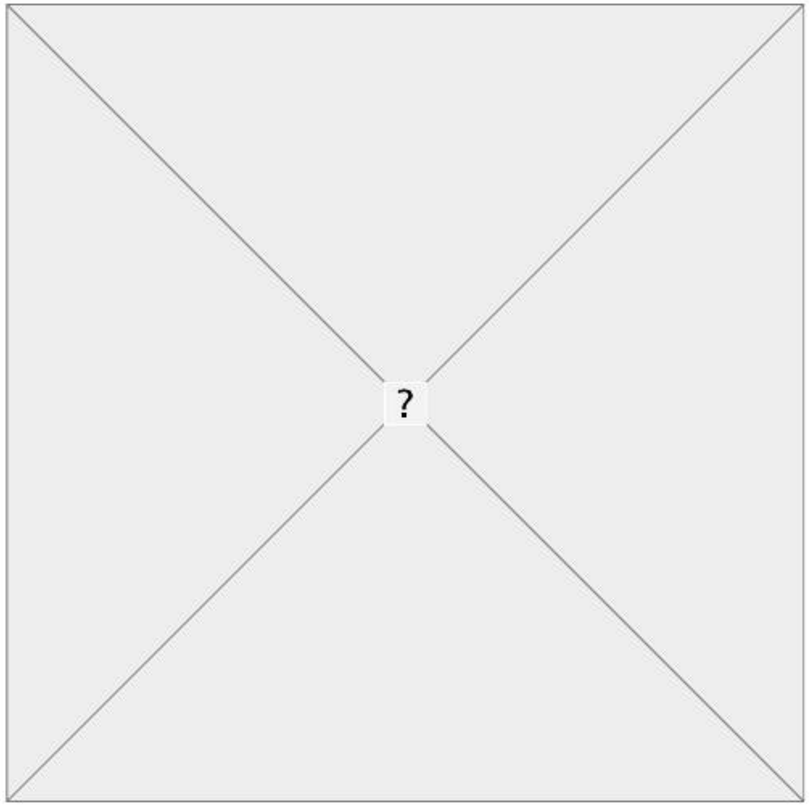

https://mau.tc/campaign-library-phase-2

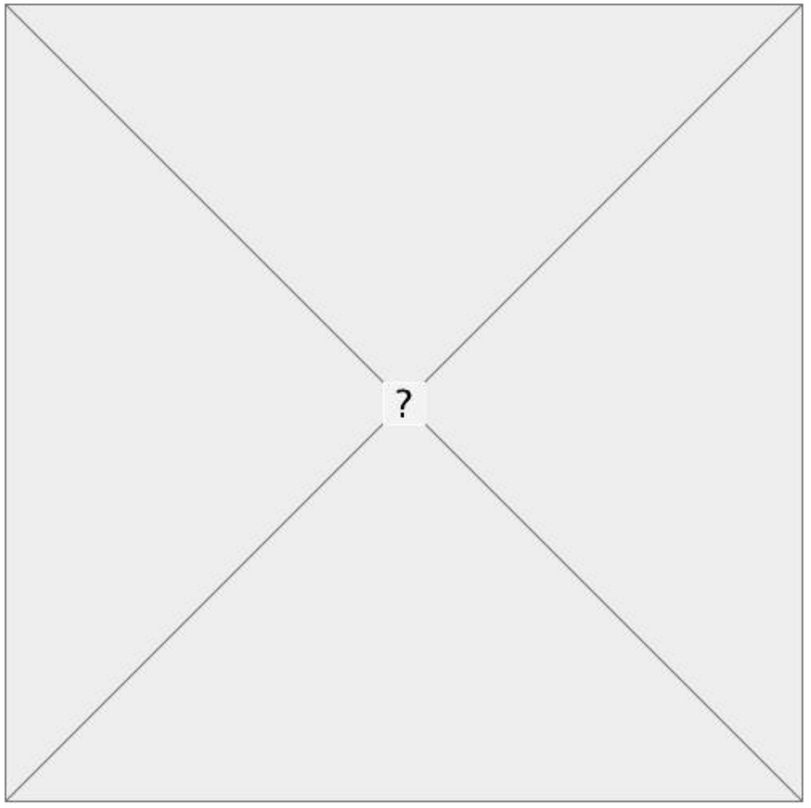

?

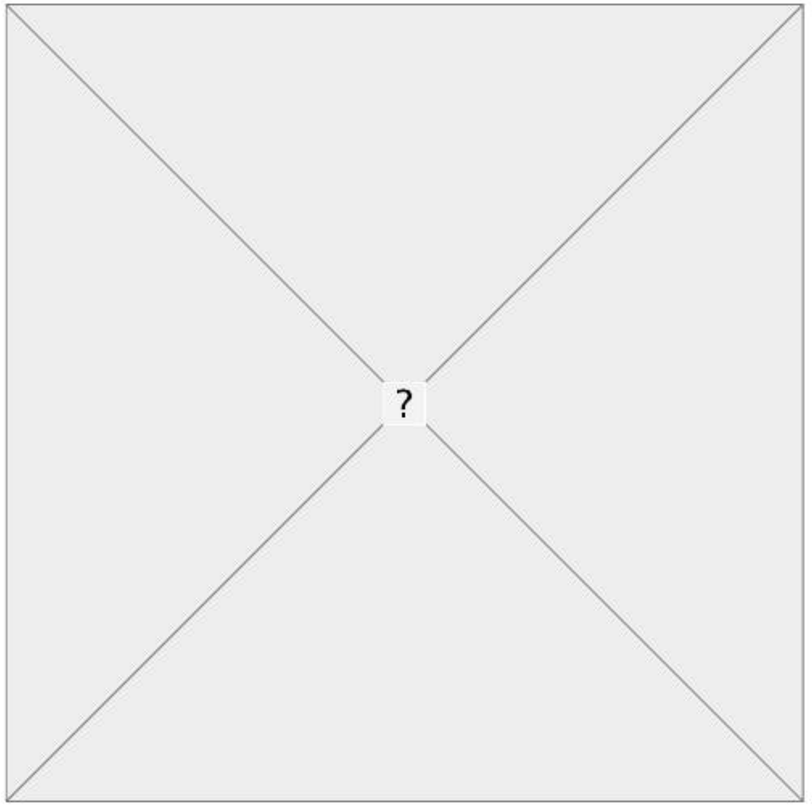

Implement an official certification programme.

- The certification program's first track - Developer certification - is currently in final testing and will launch in December.
- Exams are taken online, consist of 40 questions over 90 minutes, and require a 70% pass score.
- $150 per exam (launch offer of $129), pro-rated worldwide using the Big Mac Index.
- Marketer and integrator certifications launch in Q1 2026

https://mautic.org/mautic-certification

Each major release will come with a new certification in each tier.

Questions are refreshed with each major release, adding new features and code-related questions related to that release.

?

?

Develop a global Mautic Ambassadors program.

- Operating at the country, regional and university level to inspire grass-roots engagement with Mautic
- Bringing the power of Mautic to diverse communities around the world
- Today we're announcing our first country and regional ambassadors for the countries of Portugal, India, Bangladesh and the region of Barcelona. Will you be next?

Driving growth and awareness of Mautic around the world.

The Mautic AI Initiative.

We're creating a movement that believes marketing can be both powerful and ethical.

We believe that marketing automation should empower, not exploit.

We need to build a sustainable foundation that will serve Mautic for years to come.

AI with Mautic

Our implementation of AI in Mautic will be defined by three core principles:

1.

Privacy is non-negotiable. Unlike platforms that treat privacy as an afterthought, we're building privacy shields into the very architecture of our AI integrations. Your customer data stays yours - not exposed to third party services, not harvested for someone else's model training, not compromised in the name of convenience.

AI with Mautic

Our implementation of AI in Mautic will be defined by three core principles:

1.

Privacy is non-negotiable. Unlike platforms that treat privacy as an afterthought, we're building privacy shields into the very architecture of our AI integrations. Your customer data stays yours - not exposed to third party services, not harvested for someone else's model training, not compromised in the name of convenience.

2.

Flexibility as freedom. We're not locking you into using one AI provider or approach. Whether you want to use local models running on your own servers or carefully selected cloud providers, our framework will support your choice.

AI with Mautic

Our implementation of AI in Mautic will be defined by three core principles:

1.

Privacy is non-negotiable. Unlike platforms that treat privacy as an afterthought, we're building privacy shields into the very architecture of our AI integrations. Your customer data stays yours - not exposed to third party services, not harvested for someone else's model training, not compromised in the name of convenience.

2.

Flexibility as freedom. We're not locking you into using one AI provider or approach. Whether you want to use local models running on your own servers or carefully selected cloud providers, our framework will support your choice.

3.

Transparency as trust. You'll always know what's happening with AI in Mautic. No black boxes, no unexplained decisions, no hidden data flows. When AI suggests content or helps to orchestrate a campaign, you'll understand clearly how and why.

AI with Mautic

Areas where we see AI helping the marketer to succeed with Mautic:

1.

In content creation - imagine having an AI thought partner that works alongside you, helping come up with ideas and crafting compelling emails, designing landing pages, writing SMS messages that resonate with your customers and all the while ensuring that you're keeping your brand voice authentic and customer data secure.

AI with Mautic

Areas where we see AI helping the marketer to succeed with Mautic:

1.

In content creation - imagine having an AI thought partner that works alongside you, helping come up with ideas and crafting compelling emails, designing landing pages, writing SMS messages that resonate with your customers and all the while ensuring that you're keeping your brand voice authentic and customer data secure.

2.

For campaign orchestration - picture AI not just automating but illuminating, showing you the optimal paths to engage your audience and suggesting the right channels at the right time based on your own data, then helping to suggest and create workflows alongside you, which you control and understand.

AI with Mautic

Areas where we see AI helping the marketer to succeed with Mautic:

1.

In content creation - imagine having an AI thought partner that works alongside you, helping come up with ideas and crafting compelling emails, designing landing pages, writing SMS messages that resonate with your customers and all the while ensuring that you're keeping your brand voice authentic and customer data secure.

2.

For campaign orchestration - picture AI not just automating but illuminating, showing you the optimal paths to engage your audience and suggesting the right channels at the right time based on your own data, then helping to suggest and create workflows alongside you, which you control and understand.

3.

As a reporting and analysis partner, sharing insights that don't just tell you what happened but help you to understand why - translating complex data into actionable wisdom which improves your next campaign, and your own professional growth.

Most importantly, you choose how AI best serves you: advisor, agent, thought partner, or not at all.

Invitation to contribute to the AI Initiative.

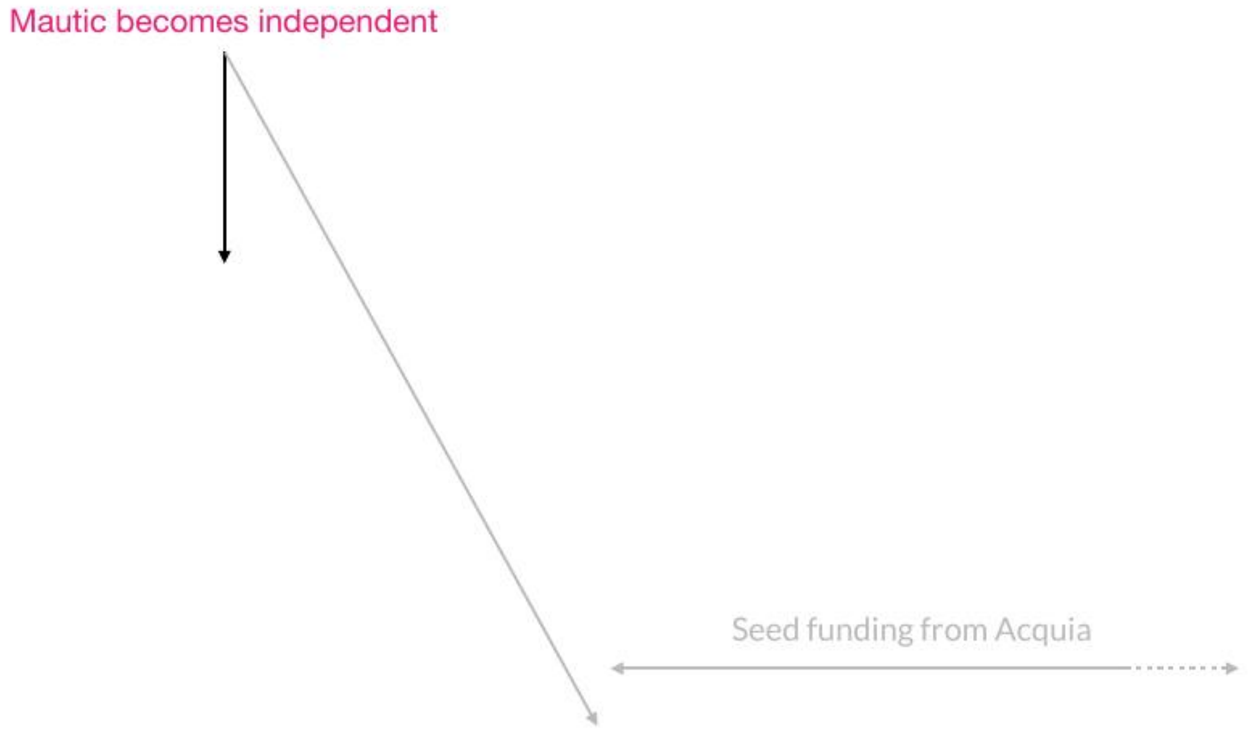

- The Product Team is gathering feedback from users of Mautic on introducing AI
- This will help determine where to focus their resources, which areas to prioritise and how to fund the work
- Submit your thoughts today!

Financial update.

Our second full year, making progress.

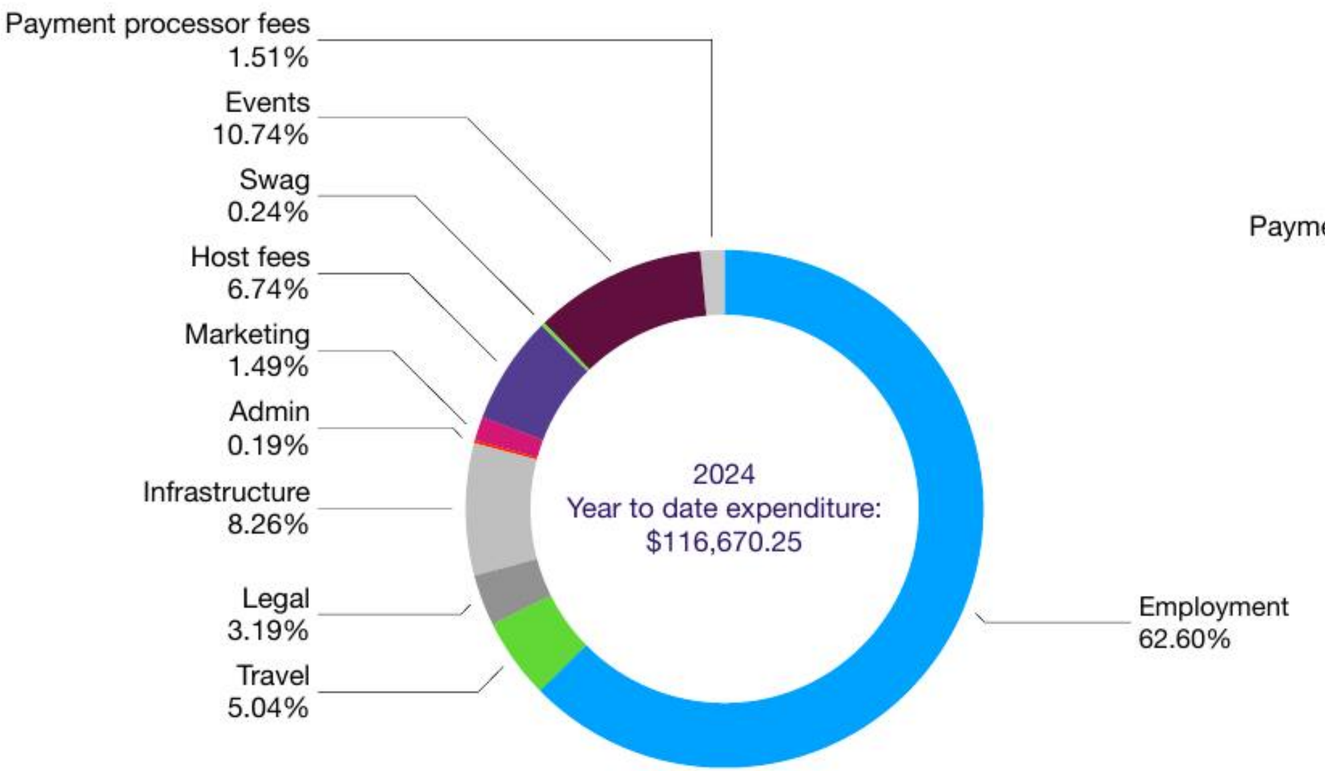

We're covering our cost, but cutting things a little fine at the end of the year due to a shortfall in income from ELTS and managed hosting.

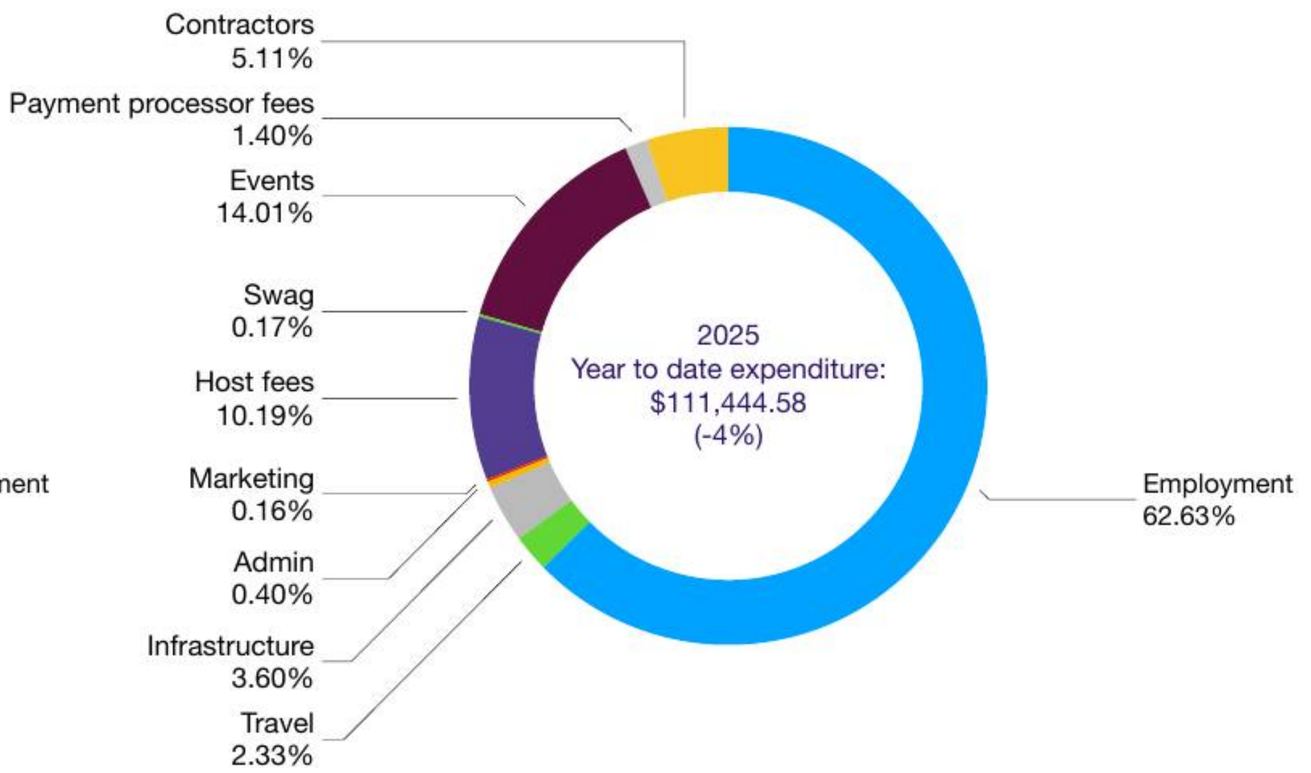

So where does our income come from?

This year we've diversified further, with a higher percentage of income from Gold and Community tier members, managed Mautic, and events.

So what do we spend our money on?

The majority of our income covers employment of the Project Lead, infrastructure, events, host fees and travel.

What does this mean for Mautic?

- We've had a great response to new members joining, but we're still too dependent on a small number of large sponsors.
- While we can attract funding for projects, grants for operational overheads are very limited - this has to come from our owned revenue streams.
- We've had to delay plans to hire a full-time developer as we've had less than expected income from memberships and ELTS.

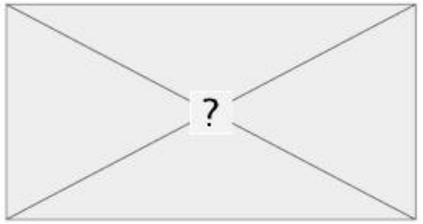

What are the Council doing about it?

- Developing more ways to proactively reach organisations and individuals using Mautic with the message about membership.
- Introducing diversified revenue streams (ELTS, Certification).
- Focusing on improving the trial experience and website so more users find and try Mautic, or use our Managed Hosting service.
- Making membership and ELTS more accessible by using the Big Mac Index to pro-rate.

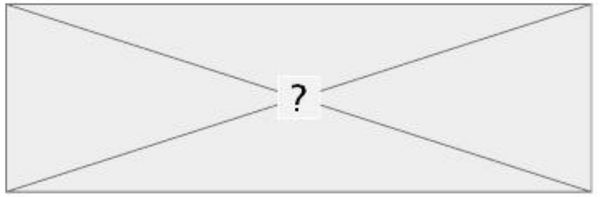

What can you do to ensure Mautic's future growth?

- Become an individual member - $100 per year (~£79) - mau.tc/membership
- Encourage your company to become a corporate member from $1,200 (~£912) - mau.tc/corporate-tiers
- Make a one-time or recurring donation via Open Collective (any amount!) - opencollective.com/mautic
- Consider donating a percentage of each Mautic project you win, or the ££ saved compared with proprietary tools, to Mautic
